Joint Bazetta PD/FD Safety Grant

To provide employees with additional equipment to safely assist the public during traffic control situations and active scenes.

After consulting with Fire Chief Lewis, we both are in agreement with the type and quantity of signs to purchase and put into service. This is being accomplished through a safety grant. The grant amount is \$500.00 (250.00 EA DEPT).

On all the apparatus of the FD, they have a total of 16 traffic cones. Chief Lewis requests that he purchase 16 arrow signs. One for each traffic cone.

After calculating the numbers of cones the PD has (52 Cones), Chief Herlinger is requesting 14 arrow signs. This allows 2/cruiser and two extra to be on station.

Chief Herlinger is also requesting 14 road closed signs. This also allows 2/cruiser with two extra to be on station.

All the signs are reflective and printed on one side only. I checked prices for the above items at 3 businesses on line. After consulting with Lewis, the best price for the quantities desired were from trafficconesforless.com.

The three businesses that we checked were:

TrafficSafety Store.com

Traffic Cones For Less.com

Safety Cones USA

Please find attached the descriptions and prices from all three.

LIFEPAK® 15 service

Stryker has been notified by our global parts providers that some components used on certain LIFEPAK 15 monitor/defibrillator models (Part Numbers beginning with V15-2) are no longer available in the market. Service on the LIFEPAK 15 with Part Number beginning with v15-5 or v15-7 is unaffected.

Stryker will continue to offer service support for this subset of the LIFEPAK 15 as follows:

- All service parts with available inventory can be purchased by our end users
- Transactional service (time and material) is available for non-contract customers
 - If a component has failed on your device, your local Sales Representative should be contacted for support
- Contractual service
 - Stryker will continue to offer contractual service on a yearly basis only
 - Preventive maintenance will continue to be done on devices less than eight (8) years old. After this point, we will cease to conduct preventative maintenance and shift to device inspections
 - If a component fails on your device, please contact your local Sales Representative for support. A pro-rated credit for any pre-paid service will be provided should a unit become non-serviceable due to part availability

It is important to note that the LIFEPAK 15 has an expected life of eight (8) years from the date of manufacture. If you are uncertain of the manufacture date of your products, please contact your local Sales Representative for a full fleet assessment.

We want to ensure the highest quality products and services for our customers. As such, it is important to know that Stryker is the only FDA-approved service provider for our products. We do not contract with third party service providers, nor will we be providing them with any additional parts for these repairs. As such, we cannot guarantee the safety and efficacy of any device that is repaired by a third-party service agency.

AMKUS INNOVATION

Compact, all-metal bodies designed to access tight spaces and require less room on the apparatus

DEWALT FLEXVOLT battery powered so batteries can be shared with other fire-rescue tools like saws, lights and drills

High Intensity LED lights located in the handle for increased visibility (standard on cutter and combi)

UL Certified NFPA 1936 Compliant - 100% tested as a battery tool

iCS50 CUTTER

- Blade and center bolt design allow access to the difficult cuts
- Rotating handle allows tool to be repositioned with minimal effort

iS240 & iS280 SPREADERS

- 24" and 28" Spreaders are compact, yet powerful

iCTS16 COMBI TOOL

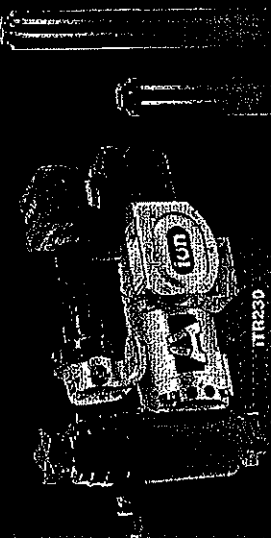

- A versatile tool for engines, rescue trucks, or ambulances
- Rotating handle allows tool to be repositioned with minimal effort

ITR230 RAM

- Highest pushing force available in a battery-powered ram
- Extensions available for a maximum extended length of 50"

Extended Reach Tips (ERT) increase the spread an additional 8" without significant loss of power

- Gator Tips and ERT's utilize a push button release, so they're easy to install or remove, even with gloved hands

Dear Mr. Hanson,

Howell Rescue Systems hereby submits the following quotation on the Genesis Rescue Systems. This is provided based on our recent contact. Should you require any additional items or information, do not hesitate to contact our office or myself.

(1) Genesis E-Force 3.0 Battery Powered C236 Next Gen. Cutter w/battery (newly released Milwaukee 5ah battery) 8.3 in. opening, and ultra-high strength replaceable blade inserts & only 51.8 lbs. N.F.P.A. #1936 compliant with NFPA rating of A8-B9-C8-D9-E9, commercially available batteries	\$11,445.00
(1) Genesis E-Force 3.0 Battery Powered S53 Spreader w/battery (newly released Milwaukee 5ah battery) 32 in. opening w 112,725 lbs. max spreading force, multi-functional spreading tip & only 46.1 lbs. N.F.P.A. #1936 compliant, commercially available batteries	\$11,414.00
(1) Genesis E-Force 3.0 Battery Powered 11C Combination Tool w/battery (newly released Milwaukee 5ah battery) 11.4 in. opening w 8,100 lbs. spreading force N.F.P.A. #1936 compliant with NFPA rating of A6-B7-C6-D7-E7	\$10,575.00
(1) Genesis E Force 2.0 Battery Powered 22-54 Telescopic Ram w/battery (newly released Milwaukee 5ah battery) 54 in. opening w 24,279 lbs. maximum spreading force. N.F.P.A. #1936 compliant, commercially available batteries	\$9,785.00
(4) 5Ah Milwaukee 28v Spare Batteries	4 @ \$230.00 Total \$920.00
(1) 3-Bay charger	\$300.00
(1) 1-Bay Charger	\$100.00

All models of the Genesis E Force Battery Rescue Tools include the following:

- Fully encapsulated aluminum fluid reservoirs for extreme durability vs. rubber bladders.
- Power buttons are of all steel construction for longevity and durability vs. plastic manufactured buttons.
- A full 3-year manufacturer's warranty on the Milwaukee 28V 5AH battery with an ambient operating temperature of 0°F to 125°F
- A high-quality brushless motor to reduce heat buildup and increase efficiency vs. a less efficient brushed motor.
- Low RPM / auto shutoff feature to increase battery efficiency and extend brushless motor life.

HRS can also provide both horizontal and vertical mounting brackets for all of the tools listed above.

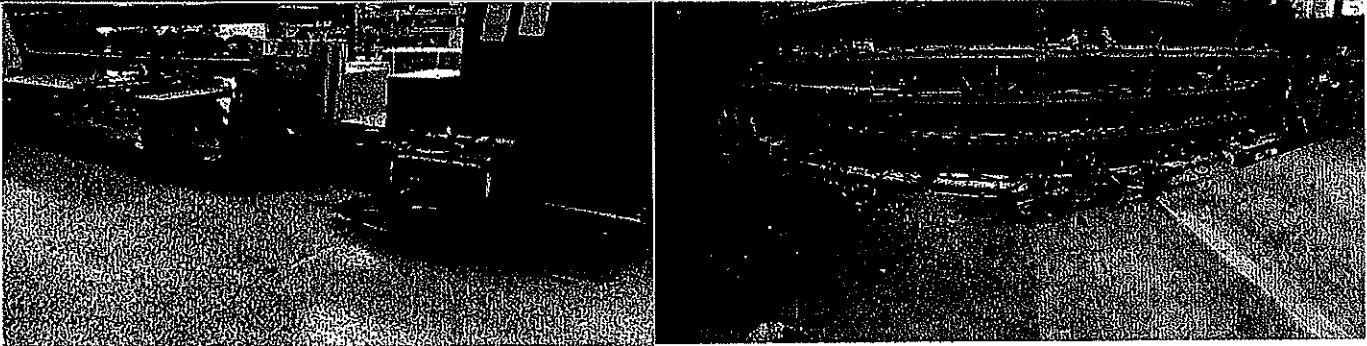

Howell Rescue Systems also offers a used rescue tool trade in program for your old rescue system. We carry a fluctuating inventory of used rescue tools as well as new 5,000 psi hose, couplers and fluid. In the event your dept. experiences an out of service issue with your existing system, tools, hose, couplers or fluid HRS would provide a loaner unit to quickly get you back in service. This would save any unnecessary expenditure toward a system that is being replaced. Loaners would be based on our inventory availability, I have included a partial inventory photo below. As when HRS has provided loaner tools in the past, there would be no charge for this loaner tool. The loaner tool could stay with your dept. until your new Genesis equipment would arrive.

Howell Rescue Systems is geared directly toward sales, service and training. After your new system is delivered the relationship between your department and our company begins. In regards to training on your new equipment, I would deliver the new tools and go through a simple operations training of the systems. A hands-on train the trainer type environment is typically very successful for this portion. This allows me the time to spend one on one with a smaller group which is typically your training personnel. Though many of the techniques would be familiar to a department of your size it would still give the chance to share some information & techniques specific to Genesis.

If you have any questions or would like to place an order I can be reached at (330) 881-0432. Thank you very much for the opportunity to demonstrate the Genesis system and submit this quotation. I look forward to hearing from you soon.
